

Blackhawk Enterprises Inc.

Total ITS Solutions

Blackhawk Enterprises was founded in 1992 in Tallahassee, Florida. Blackhawk Enterprises specializes in complete ITS systems, including video and communications, within the global traffic industry. Blackhawk Enterprises provides free conceptual design services for ITS, striving to be a consultant for consultants and DOT's. Areas of expertise and supply include:

Fiber Optic Systems - including Video over IP, FDM, CCTV Video Systems, Digital Video Recorder Systems, Camera Lowering Devices, Advanced RTMS Detection Systems, Traffic Control Systems, TMC and TCC Design, Communication Systems and Protocols

Blackhawk Enterprises is dedicated to providing state-of-the-art systems, integrating the best technologies into a superior working system. With over 24 years experience in the traffic industry, and its employees involved in the development of several revolutionary products and systems, Blackhawk Enterprises can provide you with winning solutions. Our approach of providing Total Solutions makes us the leading choice for ITS equipment supply.
