

The Signal Group, Inc.

The Signal Group, Inc. (SGI) is a specialty Electrical Contractor headquartered in Jupiter, Florida. SGI performs work exclusively for the Transportation Industry with projects developed for Federal, State and Municipal government.

The Signal Group, Inc. specializes in technically sophisticated transportation construction such as Intelligent Transportation Systems (ITS), traffic signalization, street lighting, bridge electrical systems, navigation and airport lighting and Fiber Optic Communication. SGI is certified by the Florida Department of Transportation in the following specialty classes of work: Intelligent Transportation Systems, Electrical work, Guardrail, Traffic Signals, Computerized Traffic Control Systems, Fiber Optic Cable Installation, and Roadway Signing.

SGI provides over twenty years of construction experience in the Transportation Industry and is recognized as an industry leader. SGI has developed an ITS division to address evolving technologies in Intelligent Transportation Systems and Fiber Optic Communication and the application of these technologies in Computerized Traffic Control Systems. This expertise will enable the SGI Team to effectively construct and integrate all components of ITS infrastructure into existing Transportation architecture.

The Signal Group, Inc. consists of a group of highly dedicated employees and management staff, recognized as one of the most reliable companies in the field of traffic transportation systems and highway lighting in Florida. SGI performs a turn-key construction system for the FDOT and large civil contractors responsible for the construction of the State's roadway and bridge systems.

SGI has a very specialized fleet of equipment that includes bucket trucks, crane trucks, auger trucks, trenching machines and drill shaft rigs. Additionally, SGI is recognized statewide for the ability to install drill shaft foundations for mast arms and signing structures.

The Signal Group, Inc. has maintained a dominant presence in Palm Beach, Martin, St. Lucie and Indian River Counties ever since its inception and has worked on numerous projects for the I-95 Corridor, the Florida Turnpike, U.S. Highway-1 and many assorted State Roads throughout the state.

The company's reputation has been built on a record of service and integrity, and the ability to provide service 24 hours a day, seven days a week.
